Dear Editor,

Please find enclosed a modified version of my Microreview “DCA: A Promising treatment that can target cancer cells” To address the concerns and comments raised by the 2 reviewers, I made the following changes to improve and clarify the manuscript. It is my hope that these changes make the manuscript acceptable for publication in Microreviews in Cell and Molecular Biology.

Sincerely,

Gabriel Stephens

Reviewer 1:

1. Briefly state if you found the comments of Reviewer 1 helpful or not.
I found the comments of Reviewer 1 Extremely helpful because they pointed out a lot of mistakes that I did not notice and also showed me the mistakes by highlighting them on my paper which made it easier to find and fix

2. What changes did you make to your manuscript as a result of the comments of Reviewer 1?
I made sure to add all of my citations and source my statements. They also pointed out that I talked about the methods in the recent finding section way too much, so I edited that to talk about the results more. I also fixed all of the grammar mistakes they found.

Reviewer 2:

1 Briefly state if you found the comments of Reviewer 2 helpful or not.
Reviewer 2 made pretty much the same suggestions as reviewer 1 so I found it helpful.
2. What changes did you make to your manuscript as a result of the comments of Reviewer 2?
I fixed and added my sources as well as corrected my grammer
